9 July 1959

Extract from PPS Weekly Activity Report #27

SUBJECT: Army Request for TSS Training

On 8 July ^{OTR} we received a call from Lt. Col. G. B. Woodworth of the Combat Intelligence Division, G-2, Department of the Army. The purpose of his call was to determine the status of their request for TSS training for one captain and two sergeants with the 45th MI Company at Fort Holabird, Maryland. ^{21 April 1959} I called ^{OTR} [] TSS, to find out what had occurred. [] said the matter had been referred to their officer who maintains liaison with Camp Holabird and because of some confusion as to the identity of the trainees, the instruction had not yet been given. I advised [] that Colonel Woodworth had asked me if it would be all right if Colonel Conley of the CIC School were to contact ^{OTR} [] directly. I told [] that if I received a direct call from Colonel Conley, I would arrange a meeting with the Colonel for myself and a TSS representative selected by [], and that if, in the meantime, [] liaison man could make the necessary arrangements to meet the Army requirement, to go ahead and do so. I also advised [] that Colonel Woodworth had said that the individuals for whom the training was originally requested had been reassigned and it would now be necessary to select three different individuals to receive the desired instruction.
